

# ASHISH MISHRA

## Web Developer

Ghaziabad ,Uttar Pradesh | 8933989061 | mishraashish13579@gmail.com

[Ashish\\_Mishra\(Linkedin\)](#) | [mishraashish20\(GitHub\)](#)

### PROFILE:

Motivated Software Developer with expertise in the MERN stack and a strong foundation in Java, C++, and Data Structures & Algorithms (DSA). Proven track record of building scalable web applications and solving 350+ complex coding problems across competitive programming platforms. Eager to contribute to impactful full-stack projects and backend system development.

### SKILLS:

- **Languages:** Java (Advanced), C++, Python, JavaScript (ES6+), C
- **Frontend Development:** React.js, HTML5, CSS3, Responsive Web Design
- **Backend & APIs:** Node.js, Express.js, RESTful API Development, JWT Authentication
- **Database Management:** MongoDB (NoSQL), MySQL (SQL), Firebase
- **Tools & Version Control:** Git, GitHub, Google Maps API Integration
- **Core Fundamentals:** Data Structures & Algorithms (Arrays, Linked List, Stack, Queue, String, Tree)
- **Core Subjects:** Operating System,DBMS,COA,Computer Network,Software Engineering

### RELEVANT PROJECTS:

#### Real-Time Ambulance Tracking System | React.js, Node.js, Express.js, MongoDB, Google Maps API

- Developed a real-time ambulance tracking system using GPS integration for live location monitoring and emergency response management.
- Integrated Google Maps API for route optimization and nearest hospital identification, improving dispatch and response efficiency.

#### Garbage Collection Management System

- Developed a smart Garbage Collection Management System for waste issue reporting, complaint tracking, and garbage collection monitoring.
- Implemented location-based reporting, admin dashboard, and REST APIs to improve waste management operations and tracking efficiency.

#### Notes Generator Web Application | React.js, Node.js, Firebase, MongoDB |Gemini AI

- Developed an AI-powered notes generation application that converts raw user input into structured and professionally formatted documentation.
- Implemented real-time editing, cloud storage, and content duplication features, improving user productivity and content management efficiency.

#### Hostel Management System | React, Node.js, Express.js, MongoDB, JSON Web Token

- Developed a full-stack Hostel Management System for student registration, room allocation, fee management, and complaint tracking.
- Implemented JWT authentication, REST APIs, responsive UI, and database integration for secure and efficient hostel operations.

### EDUCATION:

**Bachelor of Technology (B.Tech)** – Computer Science and Engineering I

2023 – 2027 Raj Kumar Goel Institute of Technology, Ghaziabad, Uttar Pradesh

Current CGPA: 8.5/ 10

### ACHIEVEMENTS & TECHNICAL STRENGTH

- **Competitive Programming:** Successfully solved 150+ problems on LeetCode and 200+ problems on GeeksforGeeks, demonstrating advanced proficiency in Arrays, Trees, and Linked Lists.
- **Academic Excellence:** Maintaining a CGPA of 8.5/10 in B.Tech Computer Science and Engineering.
- **Certifications:** Earned industry-recognized credentials in **Data Analytics with Python**, **Internet of Things**, and **Soft Skills** through NPTEL
